

Proven solutions for all types of restorations.

Lava™ Ultimate CAD/CAM Restorative

Made with resin nano ceramic technology—for fracture-resistant, natural-looking restorations.

- Excellent durability backed by a 10-year warranty
- Less wear to opposing dentition than glass ceramics
- Absorption of chewing forces which reduces stress
- Adjustability for occlusion with additive or subtractive techniques
- Ideal for single-unit indications, including implant-supported crowns

3M ESPE Cementation Recommendation*

RelyX™ Ultimate Adhesive Resin Cement with Scotchbond™ Universal Adhesive

Lava™ Plus High Translucency All-Zirconia

The esthetics of a layered restoration from all-zirconia.

- Provides unprecedented beauty and significantly higher translucency compared to other shaded zirconias—without compromising strength
- Patented shading system enables highly esthetic solid zirconia or traditionally layered restorations
- Excellent color match to the VITA® Classical Shade Guide and VITA SYSTEM 3D-MASTER® Shades
- High strength allows tooth-preserving ≤ 0.5 mm minimum wall thickness—requiring 3X less occlusal preparation than lithium disilicate glass ceramic because of its 3X greater strength**

**Data on file.

3M ESPE Cementation Recommendation*

RelyX™ Ultimate Adhesive Resin Cement with Scotchbond™ Universal Adhesive (for ultimate bond strength coupled with ease of use)

OR

RelyX™ Unicem 2 Self-Adhesive Resin Cement (for simplicity powered by performance)

*See manufacturer's Instructions for Use for recommended bonding procedure.
